Forecast for Wednesday 19 Aug 2020

Weather: Low cloud and mist expected overnight and during the morning. Some brighter spells around the middle of the day but cloud thickening in the afternoon with patchy rain developing, this becoming heavy and persistent at times in the evening. Winds also strengthening later in the day.

Chance of cloud free mountain/hill tops above 700m: 40%, cloud extensive at times with bases lowering to around 600m. Best chance around the middle of the day.

Visibility: Moderate or good, but often poor or very poor at height.
